Docket 01P-0230
Room 1061, 5630 Fishers Lane
Rockville, MD 20852

August 15, 2002

Dear Sir/Madam

I am writing you to ask that the FDA have a moratorium on the domestic marketing and importation of genetically engineered fish, until the environmental and human health risks are better known and protected against. I also ask that you support a ban on the release of genetically engineered fish into any open waterway including net pens and ponds. Thank you for your time and consideration.

Sincerely yours,

Arnold Freedman, M.D.
